08 09 TX 1.9

This section collects data on homeless children and youths and the McKinney-Vento grant program.

In the table below, provide the following information about the number of LEAs in the State who reported data on homeless children and youths and the McKinney-Vento program. The totals will be will be automatically calculated.

	#	# LEAs Reporting Data
LEAs without subgrants	1,161	580
LEAs with subgrants	120	120
Total	1,281	700

**Comments: The numbers for 2008-2009 LEAs include total districts and charter schools, along with the 20 Education Service Centers (ESCs). Although ESCs are LEAs, they are not districts and do not enroll students. The five ESCs that were subgrantees did report data from their participating districts. All of the 120 participating LEAs did report data concerning the 115 LEAs that did enroll and serve students. In Texas in 2008-2009, a total of 120 LEAs participated in 45 McKinney-Vento subgrants. Out of the total of 120 participating LEAs, 115 LEAs enrolled students.**

### 1.9.1 All LEAs (with and without McKinney-Vento subgrants)

### 1.9.1.2 Primary Nighttime Residence of Homeless Children and Youths

08 09 TX 1.9

In the table below, provide the number of homeless children and youths by primary nighttime residence enrolled in public school at any time during the regular school year. The primary nighttime residence should be the student's nighttime residence when he/she was identified as homeless. The totals will be automatically calculated.

	# of Homeless Children/Youths -LEAs Without Subgrants	# of Homeless Children/Youths -LEAs With Subgrants
Shelters, transitional housing, awaiting foster care	4,459	10,592
Doubled-up (e.g., living with another family)	27,612	29,763
Unsheltered (e.g., cars, parks, campgrounds, temporary trailer, or abandoned buildings)	1,378	1,743
Hotels/Motels	2,112	2,155
Total	35,561	44,253
<b>Comments: The total number of homeless students by primary nighttime residence does not match the total number of homeless students enrolled. The main reason for this mismatch is that in districts, especially large ones, where enrollment information about homeless students is collected at the campus level and not by McKinney-Vento subgrantee staff, information about the primary nighttime residence of homeless students is sometimes either not collected or not recorded at the time of enrollment. McKinney-Vento subgrantee staff have reported that it is impossible to go back and collect this information after the fact.</b>
